24. HOT GOODS: No product is offered
25. PATENTS AND COPYRIGHT INDEMNITY: No license under United States patents (other than the limited license to use) is granted by Contractor or shall be implied or arise by estoppel, with respect to any service offered under this Agreement. 27. **USE OF THE STATE OF IDAHO NAME:** Contractor agrees that it will not, prior to, in the course of, or after performance under this Agreement use the State's name in any advertising or promotional media as a customer or client of Contractor without the prior written consent of the State.
28. **APPROPRIATION BY LEGISLATURE REQUIRED:** It is understood and agreed that the State is a government entity and this Agreement shall in no way or manner be construed so as to bind or obligate the state of Idaho beyond the term of any particular appropriation of funds by the State's Legislature as may exist from time to time. 2. Qwest will waive the non-recurring costs for the remaining nine PRI Internetworking. This is a cost savings of \$11,970. Qwest currently has one installed in Twin Falls. The PRI's must be ordered within the first 6 months after contract signing.

The SMDR must be ordered within the first 8 months after contract signing.

For this Agreement, the number of NARS included in the line rate are: 205 in S. Idaho and 20 in Lewiston. Therefore, only the additional desired NARS beyond those included for free in the basic line rate, should be calculated. This amounts to 235 additional NARS in S. Idaho and 10 in Lewiston. Free NARS are determined by station count in each Central Office, not on a statewide basis.

Business Continuation Routing is a call-forwarding service that allows an agency to reroute incoming voice calls to an alternate site, or to individual alternate telephone numbers in the event of an emergency. The primary intent of Business Continuation Routing is to provide an agency or Centrex end-user, the ability to develop and pre-program

STATE OF IDAHO SPECIAL CONTRACT TERMS AND CONDITIONS

APPENDIX A2: QWEST CENTREX PRIME SERVICE OFFERING

Idaho Intrastate

This Appendix A2 ("Appendix A2") to the STATE OF IDAHO SPECIAL CONTRACT TERMS AND CONDITIONS, is for the provision of Qwest Centrex Prime Service ("Service") as defined within the Agreement. Service is being offered on an Individual Case Basis ("ICB"). Therefore, Qwest must file the Agreement with the State Commission and obtain Commission approval, if required. If the Commission does not approve the Agreement, the Agreement will immediately terminate and Qwest will provide written notification to Customer. All attachments to this Appendix A2 are incorporated herein by this reference.

Any Qwest tariff, price list, price schedule, administrative guideline, and/or catalog (hereinafter, whether individually or together, "Tariff") applicable to the Service is incorporated into the Agreement by reference and made a part of the Agreement. Qwest may change the Tariff at any time and such change will be effective upon being included in the Tariff. The Service will be governed by: (a) the Tariff applicable to the Service; and (b) to the extent a comparable Tariff term or condition does not apply to the Service, the terms and conditions set forth in the Agreement. In the event of a conflict in any term or condition of any documents that govern the provision of the Service hereunder, the following order of precedence will apply in descending order of control: the Tariff, this Agreement, and Qwest records.

1. Scope.

1.1 Qwest will provide and Customer will pay for Service. Service is a switched business communications service furnishing connections between a Qwest central office based switching system and the network interface which serves end user customer terminals. Service is a multi-media platform which delivers integrated voice, video and data services to customers.

1.2 Service includes basic (analog) station lines ("Basic Station Lines") or ISDN Basic Rate Service ("BRS") (digital) station lines ("ISDN Station Lines") referred to collectively as "Station Lines" which may be provided utilizing various technological designs. The arrangements of these Station Lines will vary for each customer depending on the number of connections to a location, the desired technology, available technology, or operating limitations, e.g. distance from a serving central office. A group of Station Lines is translated for an individual common block and is provided common access to a predetermined group of standard features. Standard features available under the Agreement are set forth in Attachment 1 to this Appendix A2. Optional features are also available from a separate price list provided in Attachment 3 to this Appendix A2. Service is not available on Public Communication Service or multiparty service. Alternative Transport of Centrex Prime Basic Station Lines over Qwest-provided DS1 is permitted. In addition to Centrex Prime Basic Station Lines, DS1 rates and charges as defined in the Private Line Transport Services Price List/Tariff apply. Customer is responsible for all Customer Premise Equipment ("CPE") required to support DS1 delivery in connection with this Service.

1.3 Customers select Station Lines based upon an analog or ISDN alternative (and will be provided the corresponding Station Lines as set forth in Section 1.2 above). The standard set of features provided varies depending on the alternative selected, and the available central office technology. A list of standard features for each alternative and central office technology is provided in Attachment 1 to this Appendix A2.

1.4 The ISDN alternative consists of three distinct channels per Station Line: two B (Bearer) channels and one D (Delta) channel. The ISDN alternative is available in two configurations: 2B+S and 2B+D. 2B+S is used for enhanced digital voice capabilities while 2B+D is used for integrated voice, data and video services. The ISDN alternative may also be provisioned as either "Custom" or "National" ISDN. Custom ISDN is only available from switching equipment provided by Lucent Technologies (5ESS switch). National ISDN provides feature transparency across all digital switching platforms used by Qwest (5ESS and DMS100). The ISDN alternative conforms to internationally developed, published, and recognized standards generated by the International Telecommunications Union (formerly CCITT).

1.5 All Station Lines must be associated with the common block. In a blocked common block, Network Access Registers ("NARs") are required to provide connections to the exchange and toll network. Included in the Basic Station Line is a Network Access element. Network Access elements under the Agreement are set forth in Attachment 2 to this Appendix A2. Additional NARs can be ordered out of the Exchange and Network Services Price List. Customer may purchase non-blocked Service. A usage element would apply per Basic Station Line for non-blocked Service. Should Customer usage exceed an average of 8CCS (hundred call seconds) per Station Line Customer will be converted to blocked Service with the appropriate number of NARs. Common Access Line Charges (CALC) apply.

to the Network Access element which is the NAR in the blocked environment and the Basic Station Line in a non-blocked environment.

1.6 Customer request for temporary suspension, either full or partial, of Service is not permitted. Seasonal disconnects are not allowed. Changes to line quantities are allowed and will be assessed all applicable rates and charges.

2. Service Provided. Qwest will provide and maintain the Service selected by Customer in the quantities stated and at the rates as set out within Appendix A1 and/or Attachment 1 to this Appendix A2 of the Agreement.

3. Charges. This Agreement provides rate stability for all Service elements except Exchange/Network Access, Common Access Line Charges (CALC)/End User Common Line Charges (EUCL), and voice grade circuits. The specific elements of Service available to Customer under this Agreement and the associated rates and charges are as set forth in Attachment 1 to this Appendix A2. Customer will pay all other charges associated with Service, including excess construction charges, billed by Qwest under this Agreement, or applicable to Service under Qwest Tariff(s). However, any change in rates, charges, or regulations mandated by the legally constituted authorities will act as a modification of any contract to that extent without further notice. Customer must also pay Qwest any applicable Taxes assessed in connection with Customer's Service. "Taxes" means federal, state and local taxes, surcharges, and other similar charges. Qwest may in its sole discretion modify the payment terms or require other reasonable assurance of payment if Customer has failed to pay any invoice when due or there is a material and adverse change in Customer's financial condition.

4. Service Changes and Additions to Service.

4.1 Moves. Customer may move the physical location of all or part of Service to another location within Qwest's territory in the FCC-designated 14-state region, provided the following conditions for the move ("new service") are met: 1) Qwest commercially offers Service and necessary facilities are technically and practicably available at the new location; 2) the new service is provided to Customer by Qwest; 3) Customer advises Qwest that the requested new service replaces existing Service; 4) Customer's requests for the disconnection of the existing Service and the installation of the new service are received by Qwest on the same date; 5) Customer requests Qwest to install the new service on or prior to the disconnection date of the existing Service; and 6) Customer agrees to sign appropriate agreements and to pay all then current recurring and nonrecurring charges related to the new service.

Deleted: ; 4

4.2 When the move is within the same building, Customer will pay one-half (1/2) of the nonrecurring installation charges for the Station Lines affected. When the move is to a different building, all associated recurring and nonrecurring charges will apply, plus any applicable excess construction charges, including but not limited to, the transfer of existing equipment. Such excess construction charges or equipment transfer charges will be paid in advance.

4.3 Additions to Service. Customer may add Service during the Term of the Agreement, under the following conditions: 1) Qwest commercially offers such additions and necessary facilities are technically and practicably available; 2) Any additions to Service, including Station Lines at new locations, during the Term of the Agreement will be at the rates specified within Appendix A1 and/or Attachment 1 to this Appendix A2 of the Agreement.

4.4 Where a Centrex/Centron type service customer elects to convert to Centrex Prime Service, and the term of the new service is equal to or greater than the existing service, nonrecurring charges will not apply to in-service Station Lines, terminating arrangements, and optional service features provided that:

- a. The Customer's system continues to be served by the same switching equipment.
- b. There is no interruption of service.
- c. There are no moves, changes or additions of such in-service Station Lines, arrangements and features, and
- d. There is a like-for-like conversion of a proprietary common block, not shared common block service.

4.5 Rates and Charges-Common Features. Rates and charges for common features and optional service features under the Agreement are set forth in Attachment 3 to this Appendix A2.

5. Directory Listings and Telephone Numbers.

5.1 One primary directory listing is furnished without charge for each Service system. Directory listings of main Station Lines may be provided at the regular business additional listing rate as specified in the Exchange and Network Services Tariff.

5.2 Intercept service will be provided on the main listed directory number for a total system disconnect.

5.3 Service telephone numbers may be sequential or nonsequential. Sequential numbers may be assigned if blocks of numbers are available and at the discretion of Qwest. Customers not wishing to change their telephone number to be part of a total Centrex Prime system may keep their existing number(s) within the central office as an option. However, there would be a Centrex Prime chip-in charge for translating telephone numbers from outside the Centrex Prime customer group. Centrex Prime Service chip-in

occurs when a non-sequential telephone number(s) is added to a new or existing sequential Centrex Prime number arrangement. Applicable miscellaneous nonrecurring charges under the Agreement are set forth in Attachment 3 to this Appendix A2.

5.4 Customers may reserve additional telephone numbers in blocks of 20 numbers for future use at the rates specified in the Exchange and Network Services Tariff.

6. Customer's Responsibilities.

6.1 Customer is responsible for placement, installation, operation, maintenance, repair, and replacement of all inside wire (including riser cable), not owned by Qwest, and CPE that Customer uses in connection with this Service. Premises wiring and CPE must be compatible with Qwest's provision of Service. Should any change in inside wiring (including riser cable) not owned by Qwest, or CPE, require Qwest to redesign Service provided under the Agreement, Customer will reimburse Qwest for all costs incurred by Qwest in making such a change. Should Service fail due to inside wiring (including riser cable) not owned by Qwest, or CPE, the responsibility for failure will be solely that of Customer and Qwest will have no liability of any kind.

6.2 Customer will furnish the equipment space and electrical power required by Qwest to provide services under the Agreement, to the Subscriber Network Interface, and will also make necessary arrangements to ensure Qwest has access to such spaces for installing, testing, inspecting, repairing or removing of Qwest services.

6.3 It is Customer's responsibility to ensure that Customer's use of this Service is as an intrastate, intraLATA telecommunications Service in accordance with Qwest's State and/or FCC regulations. Qwest will bill, and Customer will promptly pay, appropriate monthly recurring charges, for such use of and changes to Customer's Services, including but not limited to all applicable Qwest Access Tariff FCC No. 1 interstate access charges or intrastate Tariff access charges.

7. Termination. Either party may terminate Service and/or the Agreement in accordance with the applicable Tariff or for Cause. "Cause" means the failure of a party to perform a material obligation under the Agreement, which failure is not remedied: (a) in the event of a payment default by Customer, within five days of separate written notice from Qwest notifying Customer of such default (unless a different notice period is specified in the Tariff); or (b) in the event of any other material breach, within 30 days of written notice (unless a different notice period is specified in the Tariff or the Agreement). Customer will remain liable for charges accrued but unpaid as of the termination date.

8. Out-of-Service Credit. When Service is interrupted for a period of at least 24 hours after notice by the Customer to Qwest, a credit allowance equal to 1/30 of the monthly rate for all Services rendered useless will apply for each 24 hours, or fraction thereof, during which the interruption continues after notice to Qwest. Credit allowances in any billing period will not exceed the total charges for that period for the Services that were rendered useless.

9. Disclaimer of Warranties. THE SERVICE IS PROVIDED WITHOUT WARRANTIES OF ANY KIND, EITHER EXPRESS OR IMPLIED, INCLUDING WITHOUT LIMITATION, WARRANTIES OF TITLE, NONINFRINGEMENT, MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, NO ADVICE OR INFORMATION GIVEN BY QWEST, ITS AFFILIATES, AGENTS, OR CONTRACTORS OR THEIR RESPECTIVE EMPLOYEES WILL CREATE ANY WARRANTY. CUSTOMER ASSUMES TOTAL RESPONSIBILITY FOR USE OF THE SERVICE.

10. Limitation of Liability. NEITHER PARTY, ITS AFFILIATES, AGENTS, OR CONTRACTORS WILL BE LIABLE FOR ANY INDIRECT, INCIDENTAL, SPECIAL, RELIANCE, PUNITIVE, OR CONSEQUENTIAL DAMAGES OR FOR ANY LOST PROFITS OR REVENUES OR LOST DATA OR COSTS OF COVER RELATING TO THE SERVICE OR THE AGREEMENT, REGARDLESS OF THE LEGAL THEORY UNDER WHICH SUCH LIABILITY IS ASSERTED. WITH REGARD TO ANY SERVICE RELATED CLAIM BY CUSTOMER FOR DAMAGES THAT IS NOT LIMITED BY THE PROCEEDING SENTENCE, CUSTOMER'S EXCLUSIVE REMEDIES FOR SUCH CLAIM WILL BE LIMITED TO THE APPLICABLE OUT-OF-SERVICE CREDITS, IF ANY. Notwithstanding the foregoing, the limitation of liability in this Section will not apply to: (a) a party's indemnification obligations; and (b) Customer's payment obligation for all charges under the Agreement, including without limitation, Service charges, Taxes, interest, and termination or cancellation charges.

Deleted: PRECEDING

11. Personal Injury, Death, and Property Damage. Each party will be responsible for the actual, physical damages it directly causes to the other party in the course of its performance under the Agreement, limited to damages resulting from personal injury or death to a party's employees and loss or damage to a party's personal tangible property arising from the negligent acts or omissions of the liable party; PROVIDED, HOWEVER, THAT NEITHER PARTY, ITS AFFILIATES, AGENTS, OR CONTRACTORS WILL BE LIABLE FOR ANY INDIRECT, INCIDENTAL, SPECIAL, RELIANCE, PUNITIVE, OR CONSEQUENTIAL DAMAGES OR FOR ANY LOST PROFITS OR REVENUES OR LOST DATA OR COSTS OF COVER.

12. Indemnification. Customer will defend and indemnify Qwest, its Affiliates, agents, and contractors against all third party claims, liabilities, costs, and expenses, including reasonable attorneys' fees, arising from or related to the use, modification, or resale of the Service by Customer or End Users. "End Users" means Customer's members, end users, customers, or any other third parties who utilize or access the Service or the Qwest network via the Service provided hereunder. "Affiliate" means any entity controlled by, controlling, or under common control with a party.

13. Notices. Except as otherwise provided herein, all required notices must be in writing and sent to Qwest at 1801 California Street, Suite 900, Denver, Colorado 80202; Facsimile #: (888) 778-0054; Attn.: Legal Department, and to Customer at its then current address as reflected in Qwest's records; Attn.: General Counsel or other person designated for notices. Except as otherwise provided herein, all notices will be deemed given: (a) when delivered in person to the recipient named above; (b) three business days after delivered via regular U.S. Mail; (c) when delivered via overnight courier mail; or (d) when delivered by facsimile so long as duplicate notification is also sent in the manner set forth in subsection (b).

14. General. Customer represents that it is not a reseller and will not resell the Service. Customer may not assign to a reseller or a telecommunications carrier under any circumstances. The Agreement is intended solely for Qwest and Customer and it will not benefit or be enforceable by any other person or entity, including without limitation, End Users.

1. Taxes, fees and additional charges are subject to change due to Federal, State and local regulations. SLC, LNP and PICC do not apply at this time.
2. Each Centrex PRI Internetworking is made up of three components:
 - 1) (1) quantity ZPAZD – Primary access – T1 Facility Configuration. This is the loop or pipe. \$200 MRC
 - 2) (1) quantity ZPTBX – Internetworking Facility, which allows Primary Rate Service to be assigned to business/terminal groups creating links from a Centrex Common Block to an Interexchange (IXC) POP. \$47 MRC.

Customer Access Line Charge (Lewiston)	CALC	\$8.88 Per NAR
Telephone Assistance Plan	TAP	\$.12 per Access lines (NARS & DSL)

Notes:

1. Taxes, fees and additional charges are subject to change due to Federal, State and local regulations. SLC, LNP and PICC do not apply at this time.
2. Each Centrex PRI Internetworking is made up of three components:
 - 1) (1) quantity ZPAZD – Primary access – T1 Facility Configuration. This is the loop or pipe. \$200 MRC
 - 2) (1) quantity ZPTBX – Internetworking Facility, which allows Primary Rate Service to be assigned to business/terminal groups creating links from a Centrex Common Block to an Interexchange (IXC) POP. \$47 MRC.
 - 3) (23) quantity M63 – DFI interface between the Centrex system and any interexchange carrier. For PRI only 23 M63s may be deployed. 23 quantity x \$7.5 = \$172.50 MRC.

This PRI arrangement differs from DIE1X arrangement where a customer can deploy all 24 interfaces.

Please note that the PRI arrangement does not need the DIE1X element.

The State has requested 10 PRIs. Qwest already has one deployed. Qwest will waive the NRC for the nine remaining PRIs. Any PRI subsequently ordered will have an NRC of \$1,330 each plus associated M63 NRC.

3. N11 - calls (other) - Except for 411, currently the information services Qwest has available are no charge to the end user.
